FINAL ULTIMATUM IS SENT TO THE GERMAN GOVERNMENT· MUST PAY FRANCE PREPARES FOR MILITARY MOVE

Minister Briand Stands Firm Against Leniency To Germans. France and Great Britian Effect Compromise.. Germany Has Until May 8th to Decide

WHAT THE ALLIES ARE DOING

The Supreme Council meets today to prepare a final ultimatum to Germany demanding acceptance of the Allied terms.

France sends cavalry to the Rhine in anticipation of offensive movements.

Allied disturbed over the possibility of offending America by isolating Germany, as Knox Peace Resolution passes the senate planned full exposition of their ultimatum in the hopes of securing the approval of the United States.

By Ed. L. Keen
United Press Manager

London, May 22.—The Allied Supreme Council has agreed in principle on the terms of an ultimatum to be submitted to Germany, it was announced today at the conclusion of the morning session.

Military preparations for an invasion of the Ruhr District will proceed so that everything will be in readiness for the ultimatum.

Both the French and British delegates were jovial and in full accord at the conclusion of the meeting which is taken as an indication that the discord so apparent Saturday and Sunday has been wiped out.

Under the ultimatum Germany must pay one hundred and thirty-two billion gold marks in reparations. It will also call for further disarmament. The answer of acceptance or rejection must be made on or before May 8th.

Premier Lloyd George informed the council that America and labor organizations in the Allied countries must be convinced of the absolute need of Allied co-operation in the carrying out of the penalties provided

Paris, May 2.—France went right ahead with military plans on the German border today and troops are being concentrated all along the front. The scenes remind one of the stirring days of 1914 when with bands playing and colors flying, her valient hosts went out to meet the invader. All preparations are made for the calling to the colors of the class of 1919 immediately on word of the final rejection of the ultimatum by Germany.

Premier Briand threatened withdrawal from the Council and that he would return ot France and resign rather than grant Germany any leniency, and depart from the plans for an invasion with the proviso that France should agree to a final ultimatum to be answered by May 8.

COUNTRY QUIET

Columbus, O., May 2.—Return to normal conditions throughout the nation through the act of anarchistic demonstrations on May day was declared by United States Attorney General Harry Daugherty today. Attorney General Daugherty sat at his home all day and received hourly reports from Department of Justice operatives.

Every hour gave reassurance of quietness and calmness spreading througout the land, he declared .

RAID ON MEXICAN PETROLEUM STOCK

New York, May 2—Mexican Petroleum fluctuated today over 7 points range. The stock was raided early i nthe day and sank to 143, traders using a report that Mexican oil wells were going dry. The issue jumped 7 points when an emphatic denial was produced.

MICKIE SAYS—

BANDITS SORT SECURITIES AND TAKE CHOICE

Hold $7500 and Return $27,500 to Uniontown Man Held Up at Gun's Point.

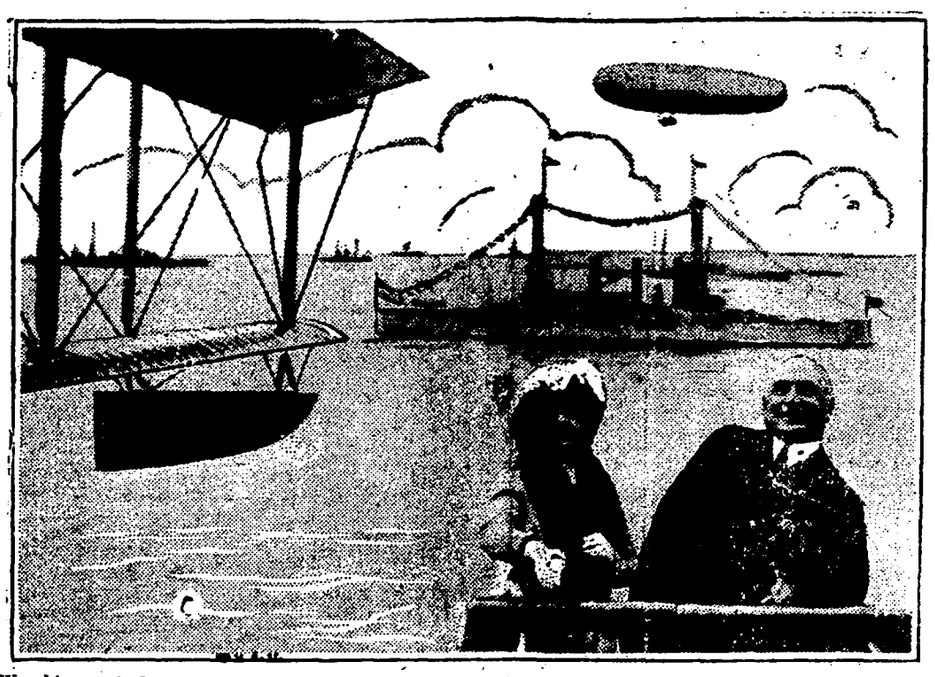
Uniontown, May 2—Bonds amounting to $7500 were stolen from Robert Graham by two masked bandits today. Driving into this city with securities amounting to $35,000 he was forced to stop when the bandits' automobile drove across the road, blocking the way. At gun's point he was obliged to hand over the entire lot of securities, which were sorted out, and $27,000 worth returned.

HUSTON TOWNSHIP FOR GOOD ROADS

The citizens of Huston township registered their sentiment in regard to bonding the township for the purpose of constructing good roads and their decision was even more emphatic than that of Sandy township, in favor of the issuance of these bonds. The voters declared for the contemplated bond issuance by a majority of 215, there being but 37 votes against the proposition. The vote in detail:

	Yes	No
Tyler Precinct	81	10
Penfield Precinct	134	27

First Picture–Harding Reviewing Fleet



Warships and fighting aircraft are shown passing in review before President Harding off Hampton Roads, Va., on his first visit to the Atlantic Fleet, April 28. President and Mrs. Harding on the deck of the Mayflower, from which they watched the review.

SENTENCE AGAINST SENATOR NEWBERRY IS SET ASIDE BY UNITED STATES SUPREME COURT

WASHINGTON, D. C., May 2.—Sentence of two years' imprisonment and $10,000 fine made against Senator Harry Newberry, of Michigan, on charges of illegal use of money in his campaign for the Senatorship against Henry Ford, in 1918, was set aside today by the United States Supreme Court. It held unconstitutional a section of the federal act under which Senator Newberry and sixteen others were convicted by the District Court of Michigan.

Sentences and fines imposed upon friends of the Senator were also set aside.

Free to Serve Remainder Of His Term in Senate.

The Senator, under the decision, is free to serve the remainder of his term. It was charged Senator Newberry and his campaign manager spent at least $100,000 to win the election. Originally 134 persons were indicted, but only 17 of these were convicted.

HAVE YOUR RUBBISH READY WEDNESDAY

The program for "clean-up day" scheduled for last Friday and called off on account of the weather, will be carried out, rain or shine, on Wednesday next. Get your rubbish ready. The trucks will be around Wednesday. Will tell you more about it tomorrow.

A FATHER'S CREED
By A Parent

I believe in the energy and enthusiasm of Youth. They are the dynamic power of the human race.

I believe in the dreams and inspirtions of Youth. They give vision to life.

I believe even in the mistakes of Youth. They are the furnaces in which its gold is refined. Without the discipline of its mistakes Youth would often lose its balance.

But I know that the energies and enthusiasms of Youth may be dissipated, its dreams and aspirations forgotten, its ideals undimmed, its mistakes repeated.

Knowing this, I will do my utmost to preserve the things of Youth that I believe in, and to press home the lesson from each mistake so vividly that the same mistake may never be made again.

I shall strive to teach my boy to direct his energy and enthusiasm in the right channels instead of wasting them; to realize his dreams and aspirations instead of forgetting them; to hold to his ideals in spite of disillusionment.

This is no easy task that I have set myself. I shall need all the experience and judgment of mature years. I shall need the sympathetic understanding of the problems of Youth which can only come in keeping in close touch with young hearts. And to this task I dedicate myself.

POPULAR TOWN COUPLE WEDDED THIS MORNING

B. Frank Stewart and Miss Elsie Bratton were united in marriage at 7 o'clock this morning at the Trinity Methodist parsonage, by the Rev. W. W. Hartman, the impressive ring ceremony of the Methodist ritual being used in tying the nuptial knot.

The attendants were Russell Bratton, brother of the bride, and Miss Frances Stewart, sister of the groom.

Mr. Stewart was an overseas soldier and is now associated with his brother in the drug business.

Miss Bratton, daughter of Mr. and Mrs. Milford Bratton, of Turnpike avenue, is a graduate nurse of the Harrisburg Hospital and possesses all the essentials of a high type of womanhood. Following the ceremony they left immediately by automobile on a wedding trip.

They are among Clearfield's best known and highly esteemed young people and their many friends will wish that a full measure of life's best things may come to them.

BURTON CLARK DIES

Burton Clark died at his home, corner of West Front St. and Mill Road, at 7:30 o'clock this morning, after an illness extending over several weeks. The deceased had been a resident of this community for many years. He was an industrious man and was generally respected.

Proper obituary and funeral notice tomorrow.

E. W. Evans, of Graham township, is visiting his brother, J. M. Evans, and other relatives in town at present.

"SIX GUN" ARTIST LANDED IN JAIL

Giles White, who is nigh as black as the ace of spades, is in the toils again. Giles had been employed by the Sewer Pipe people reecntly and on Tuesday afternoon last, while at work with several other men out near the plant, got into an altercation with another colored man named Frank McPherson. In the mix-up White is alleged to have pulled a "six gun" and shot McPherson in the leg.

Following the shooting White made his getaway. A warrant was issued charging him with the shooting and placed in the hands of Constable Lee Sunderland of the Fourth Ward. He traced his man to Johnstown and then asked the assistance of the Johnstown police in rounding White up.

The alleged gunman was arrested in Johnstown on Saturday last and brought to the Clearfield jail. His case will be disposed of at May term of criminal court.

A Mountain of Salt.

Nevada contains a mountain of salt pure, solid and transparent. In the early days, when the Mormons had to rely solely on their own resources, they used flakes from the mountain for window panes instead of glass.

1ST WOMAN GRAND JUROR SERVING ON GRAND JURY TODAY

The first week of civil court for May term opened this morning with Judge Bell on the Bench and a large number of cases listed for trial.

Judge Bell is endeavoring to secure an out of town judge to try a couple of special cases and there may be two courts before the week is out.

The Grand Jury was called and sworn at 10:30 o'clock, fifteen members answering to their names when called. E. J. Knarr, of Irvona, was appointed foreman of the Grand Jury.

The first women to be drawn for jury duty in Clearfield county were summoned to serve on this Grand Jury. That the women are not going to favor jury service any more than the men was shown when neither female juror was present when her name was called.

The first woman called was Mrs Verda M. Hunter, of Mahaffey. Mrs. Hunter is a clerk in one of the departments at the State Capitol at Harrisburg and had asked to be excused from jury duty on that account. The request had been granted by Judge Bell, who announced the fact when Mrs. Hunter's name was called by Prothonotary Ralston.

Miss Hannah M.Jacobson of Grass flat, was the other woman juror. She did not answer to her name because she had not been able to get to town from her home in time for the roll call. She came in on the 11:35 New York Central train and took her place on the Grand Jury after the noon recess.

There are more than one hundred criminal cases on the list for trial.

Escapes Russia

Captain Merion C. Cooper of Jacksonville, Fla., has escapde from the Bolshevik prison in Moscow and is now in Riga. He was a pilot in the famous Kosciusko squadron on the Polish front when captured last July.

Try a want-ad.

STRIKE MOVE SPREADS THROUGHOUT THE UNITED STATES MONDAY

C. H. S. RELAY TEAM MADE GLORIOUS RECORD IN PHILA

Only Two High School Teams In Entire Carnival Show Better Speed Than The Lads From Clearfield

TORRENCE USED HIS HEAD

By Dick Leipold

Coach Heisey and his squad of Relay Speed Marvels, arrived on the 5:30 Sunday evening train from Philadelphia.

All the team members are in good shape, and feel like another race tomorrow, as one of the fellows remarked.

That Clearfield was there is proven from the following extract from the Public Ledger:

"The first victory of the afternoon was scored by the Clearfield High Relay Team, winning by fifty yards, in wonderful time for school boys, considering the heavy condition of the track. The time of the upstaters was 3minutes 38 2-5 seconds."

It was also the opinion of many of the field officials at the Penn meet, that if the tract had been fast the Red and Black runners would have established a new record. As the record stands, Clearfield's time was better than any high school at the Carnival, excepting Stuyvesant High School ,of New York City, and Cedar Rapids of Iowa.

In fact Clearfield ran in such fine form, weather conditions being considered, that another week or two of intensive training, will clip several seconds from Saturday's record.

The Red and Black clad school boys covered the mile in better time than several colleges, while the time of Kiski, Peddie and Perkiomen prep. runners was several seconds slower than Clearfield's pace.

Spectators say in regard to the race that it was the great headwork of Torrence as lead off man for Clearfield that gave the locals a 15 yd. lead Torrence jogging along slowly for the first 220 pacing along with the tailenders. Torrence wore a red cap and when half of his apportioned distance was covered, Cecil cut loose, and made the rest of the runners look as though they were standing still. The cry from the stands was "Look at the Red Cap fly."

Every man on the Clearfield team increased the lead Torrence gave them at the start.

The fellows ran in the following order. Torrence, Smith McKendrick and Norris; Bruce busting the tape 50 feet in the lead.

Each man on the Clearfield team received a medal from the U. of P. and a banner to be hung in the winning school's trophy room.

Attorney Gen. Daugherty Keeps Close Watch on Anarchistic Conditions.

SEAMEN ON COAST SHIPS ON STRIKE

Chicago Stock Yards Promise To Be Scene Of Battle Between Striking Stock Handlers and Strike Breakers

With thousands of printers throughout America on strike for a 44 hour week and closed shop conditions, some newspapers have been forced to suspend publication. Job shops, however, were the hardest hit. Leaders of the International Typographers' Union declared a conference with employers, held in 1919, promised a 44 hour week ,with an increased scale this year, to be effective May 1st.

PHILADELPHIA, May 2.—Several hundred printers, members of Philadelphia locals, are expected to go on a strike to enforce their demand for a 44 hour week. This will not affect the newspapers, it was said.

LANCASTER, May 2.—The regular editions of the morning and afternoon newspapers here suspended today, as a result of the strike affecting the commercial printers.

The News Journal issued an edition made by the photo engraveur process from typewritten copy. The Intelligencer and The Examiner are both said to have planned to adopt this method until the strike is ended.

HARRISBURG, May 2.—About 100 members of the typographical union are on strike here today, for the 44 hour week and closed shop. Union leaders say the strike is 95 per cent complete. Bookbinders and pressmen are to meet later to decide whether to join the strike.

BUILDERS HAVE HANDS FULL

PHILADELPHIA, May 2.—Building operations here today were handicapped by the strike of between 40,000 and 60,000 workers in the various building trades strike. The men refused to accept a wage reduction put into effect May 1st. Both the employers and the union men declare they will stand firm. The former said that 40,000 men are on strike, while the union officials place the figure of striking workmen at 60,000.

SEAMEN STRIKE GROWING

NEW YORK, May 2.—The Marine strike, which would paralyze shipping on the Atlantic, Pacific and Gulf coasts, grew today while both sides awaited intervention by President Harding. Although the strike went into effect yesterday afternoon, full effects will not be felt here before midnight.

If all the seamen in the various unions respond it will mean: 13-000.000 tones of shipping tied up, 125,000 marine workers idle and

(Continued On Page Five.)

HERE IS MORE PROOF THAT HONOR IS UNKNOWN IN BOOTLEGGER BUND

There sure is "blood on the moon" in illicit booze circles hereabouts over the loss of that truck olad of booze which was captured by the wrong consignees some time after daylight Friday morning.

To show you how near but yet so far some of our thirsty fellow citizens came to realizing on their dear ve must correct out story of Saturday. The correction appertains to but geography or location alone, the rest of the tale is only too true, as some ten or a dozen local thirsties can offer parched throats to prove.

We located the cleanup of the booze caravan at Bigler, when as a matter of fact the Shamokin gentleman in charge of the truck had trundled safely along as far as the west end of the bridge across Clearfield Creek when a burly citizen encased in a fireman's uniform, flanked by two other huskies in citizens clothes halted him.

The poor driver was told and made to see the error of his ways and while the "officer" held him up the other fellows decamped with the booze. They quickly returned with the empty car and the driver, glad to get even as conveyance back, jumped in and after grabbing the wheel, "stepped on her tail" and vanished in a cloud of dust in the direction of "the hard coal."

Here comes the "sob stuff" in the story. The dryfellows waiting here to take over the cargo, which each one tearfully admits was honest-to God-sure-enough-bonded likker, now say that the dealer was double crossed by a Clearfield county agent, who had himself run much liquor this way and agreed as a professional favor to pilot his fellow-bootlegger's cargo into Clearfield on this occasion. Those

THE GRANARY

A Column of News and Timely Topics for the Man Who Feeds the World

Spring Wheat

[National Crop Improvement Service.]

HARD dark spring wheat is the best milling wheat in the world, and the vigorous campaign now under way to preserve this wonderful wheat is making great progress in spite of conditions.

For the past two years black rust has destroyed millions of bushels, but the U. S. Department of Agriculture has established barberry leaders in the several spring wheat states, who are county by county making a careful survey to destroy the barberry bush, which is the only vegetation which harbors black rust of wheat in the transition stage from black to red spores.

Dr. Carleton Ball, who is in charge of Cereal Investigations in Washington, states that in the past three years more than $600,000 has been devoted to this work, and while the appropriation available this year is none too large, the work will begin to count owing to the fact that a large territory is now free from the barberry bush.

Every community within hundreds of miles of the spring wheat territory should be carefully patrolled and inspected periodically, because even where barberry has been dug out, if any rootlets are left in the ground, they will sprout again and the work will have to be done over.

A bounty is being paid in certain counties in Minnesota, headed by a fund contributed by the American Steel & Wire Company and similar contributions should be made available so that every acre may be reinspected annually until the pest is eradicated.

Castle Has Unique History.

One of the oldest and most fascinating English castles, "The Saltwood," near Hythe, has a unique history. The castle is over 1,550 years old. It was built by Olsc, son of Hengist, in 448, and rebuilt by Henry de Essex, the king's standard bearer, in about 1100. The famous Thomas a' Becket's murderers met there in 1162 and laid their plans. During the reign of King John it was noted as the residence of the archbishop of Canterbury.

Matching Up Sable Skins.

In the critical eyes of the furrier there is a great deal of difference in skins of animals of the same species. For instance, it takes hundreds of sable skins to make a long wrap, and because the fur on the under side of the animal is always thinner than on top, the sides of the pelts must be tucked and sewn together in many small seams to give the fur a uniform thickness. A fur cloak costing thousands of dollars is entirely the work of experts.

ODDS AND ENDS AND THINGS

"By Skinney"

Americans are notoriously unthrifty. Three-quarters of us at death leave estates which average less than $500 in value. Ninety per cent of those who reach the age of sixty-five are partly or wholly dependent.

American wage earners pay out six thousand million dollars a year for rent, and at the year's end have only shelter to show for it.

* * * *

Secretary of the Navy Denby, who was formerliy Desertion Court Probation Officer for the city of Detroit before President Harding catapulted him into Josephus Daniel's old brogans, is strong on ginger bread and gold lace. The new Secretary has dug up and authorized once more the fancy uniforms for the navy officers, cocked hat, dress sword and epaulets, special full dress uniforms. He also frowns upon the near-familiarity between officers and men on ship board, allowed under the Editor-Commander.

THE LAND OF THE FREE, WHAT?

In an interview with a representative of the Philadelphia Public Ledger, Rev. Harry L. Bowlby, national secretary of the movement for making Sunday a day of gloom, declares quite frankly:

"We are well financed. Our lobby at Washington will be an effective and experienced one. We shall work in every Congressional district in every state. We shall agitate and spread propaganda and cause voters to write unceasingly to their representatives in Congress until no Coingressman who cares to stay in Congress will dare to refuse to vote for our measures.

"We shall try to close the baseball parks, the golf links, the motion picture and other theatres, the concert halls, the amusement parks, the bathing beaches, and so on. We shall oppose golf, tennis, football, baseball and other sports, even if purely amateur.

"We shall seek to restrain the sale of gasoline for pleasure automobiles, and urge other measures that will stop Sunday automobiling and joy-riding. Excursion steamers on Sunday will be opposed. We believe that if we take away a man's motor car, his golf. sticks, his Sunday newspaper, his horses, his pleasure steamship, amusement houses and parks, and prohibit him from playing outdoor games or witnessing field sports, he naturally will drift back to church."

Now, all together boys:
"MY COUNTRY 'TIS OF THEE"—
"SWEET LAND OF LIBERTY."

* * * *

The United States Congress is evidently not of the opinion that the nations of the earth are tired of war and ready to sit down in peace and amity and arbitrate all real or fancied grievances between nations. The naval appropriations bill for 1921, passed on Thursday, carries an appropriation of $396,000,000.

* * * *

New York state juries in every case tried under the recently enacted state bone dry law, have refused to convict, which might make it appear that prohibition is not unanimously popular.

* * * *

When bootleggers fall out and two or three capture the stock of booze, many honest but thirsty citizens continue to go dry.

* * * *

Royal W. Smith, a Bridgeport, Connecticut man, got in a huff at his wife the other day and quit. He has a real kick too, like unto "white mule." The Smith's were married a couple of years ago after being divorced once, and ever since the wedding Mrs. Smith had been charging the "old man" $4.00 per week for room rent, but when the high cost of everything caused Mrs. Smith to boost the rates $1.00 per week, the husband refused to settle and hunted a cheaper place to reside.

* * * *

Chinese newspaper publishers have solved the problem of high paper cost, and incidentally passing the advantage along to their readers, according to J. W. Sanger, American Trade Commissioner, who has just returned from Peking. He says in China a man may rent his newspaper, if he so desires.

When the daily news is subscribed for on a rental basis, according to Mr. Sanger, the first subscriber pays the top price. At an agreed time the paper is taken from him and delivered to the second man on the list, who gets it a little cheaper.

"Thus it passes on from hand to hand, getting ever cheaper, dirtier and more forlorn, until finally nothing is left but shreds," said the Trade Commissioner.

Gold Medal Glenwood

A Wonderful Coal And Gas Range

Really Two complete ranges using different fuels, skilfully built into one compact stove for greater convenience. You may use the coal and the gas at the same time, or either one without the other. You have gas in warm weather and coal in cold weather. At any time you wish to do more baking or more cooking, you have the advantage of using both fuels and both ovens at the same time.

The illustration below shows the wonderful pearl grey porcelain enamel finish—so neat and attractive. By simply passing a damp cloth over the surface you are able to clean your range instantly. No more soiled hands, no more dust and smut. **It banishes the old time task of blacking the range.** **You owe it to yourself** to enjoy the comfort and convenience of the Gold Medal Glenwood range.

Leitzinger Brothers, Clearfield

Make Your Kitchen Work A Delight

When you have this modern convenience in your kitchen you will wonder how you ever got along without it. For it will enable you to do your work easier and in less time.

Kitchen work is as important as office work. And there is no more reason why woman should be content with old fashioned methods in the kitchen than why men should do without modern office appliances, improved farm implements or factory equipment. Watch our ad in Wednesday evenig's paper.

MOONSHINERS

Continued from Page One

who lost the booze say he did the piloting alright and also piloted the pirates who captured the load. The tale of the injured is to the effect thatale of the injured is to the effect tha this fellow, who followed the consignment from his home town to Clearfield tipped off the three "liquor pirates" as to the time of the arrival of the truck and had them lying in wait for the unsuspecting driver when he arrived near the bridge. We don't know how true this part of the story is but we do know that more than one of the disappointed consignees told the fellow to his teeth here in Clearfield Friday morning that he was r[illegible] only in on the play but that he p[illegible]ed by the holdup.

Criminations and recriminations flew back and forth thick and fast. The fellow was threatened with prosecution and retaliated by saying that if any arresting was done he would get in the game himself by having every fellow arrested he had sold to and would send the officers with their search warrants into some of the "best cellars" in town and make every tub stand on its own bottom. He is also alleged to have said that he has made $100,000 "running booze" the past year and was willing to spend some of that if anybody got gay with him.

So there you are. Meanwhile many a Clearfielder was dry over Sunday who had never been dry before, since nation-wide prohibition failed to prohibit, while the booze bandits are being ostracized from many circles which heretofore knew them best.

It is a sad story shipmates.

We haven't seen any of that likker yet and we are getting ready to name names, by Heck! Somebody had better come across pretty quick.

(To be continued)

CUT THIS OUT—IT IS WORTH MONEY

Cut out this slip, enclose with 5c and mail it to Foley & Co., 2835 Sheffield Ave., Chicago, Ill., writing your name and address clearly. You will receive in return a trial package containing Foley's Honey and Tar Compound for coughs, colds and croup; Foley Kidney Pills for pains in sides and back; rheumatism, backache, kidney and bladder ailments; and Foley Cathartic Tablets, a wholesome and thoroughly cleansing cathartic for constipation, biliousness, headaches, and sluggish bowels.

M., when and where all claimants are required to present their claims before said Auditor, or they will be debarred from coming in on said fund.

JOHN M. UREY,
Clearfield, Pa., Auditor.
April 16th, 1921. 4-18-25-5-2-ch

Must Not Sling Mud.

An automobile driver who drives his car so as to splash pedestrians is liable to incur a heavy fine in Japan To prevent this possibility, Japanese drivers equip all four wheels with odd fenders, consisting of strips of paper or fabric suspended from a horizontal board fastened to the hub-cap.

Christianity's Achievements.

With Christianity came a new civilization, and a new order of ideas. Tastes were cultivated, manners refined, views broadened and nature spiritualized.—Azarias.

The KITCHEN CABINET

(©, 1921, Western Newspaper Union.)

Life's Symphony—To be thankful for each new day and to put into it and to get out of it all the good I can. To give, expecting nothing in return, to help to bear the burdens of others without burdening them with mine, to know enough of sorrow to be able to sympathize, to know enough of sin to direct others into right paths.—Catherine C Jenney.

HINTS AND RECIPES.

How many cooks find it worth while to save a cupful of griddle cake batter? It is easier to throw it into the garbage can than to plan a way of using even one-half cupful. When eggs, milk and flour have been used in the preparation of cakes, even a little waste is an extravagance. Very nice muffins for tea or lunch may be made of the batter, adding more milk, flour, baking powder or soda, and a half dozen fluffy light muffins will not be wasted for they may be warmed over for another meal and be almost as good as the fresh ones.

A most delicious loaf or loaves of brown bread may be prepared from leftover griddle cake batter. Add an egg, more milk, sour or sweet, with soda and baking powder—a little of each is good; add molasses, a few raisins, two cupfuls of well-soaked stale bread and one cupful each of graham and corn meal; mix well, adding a little flour, if needed, to make a drop batter; put to steam in one-pound coffee cans tightly covered after greasing them well and filling two-thirds full. Steam two to three or five hours in a fireless cooker with water well up the sides of the cans. A hot stone placed in the cooker adds greatly to the heat, otherwise remove the kettle and boil again after it has been in for an hour or two. When the bread is steamed remove the covers and roll the cans into the oven to dry and finish cooking. A half-hour in a moderate oven is time enough.

Coconut Meringues.—Beat the whites of two eggs very stiff; add slowly half a teaspoonful of sugar and continue beating until one-quarter of a cupful has been added. Now add one-half cupful of sugar, a few grains of salt, two teaspoonfuls of rice flour, mixed with one cupful of shredded coconut. Shape the mixture in rounds on a tin lined with light brown paper and bake in a slow oven until well browned.

Nellie Maxwell

NEWS OF OUR NEIGHBORS

CURWENSVILLE

Owing to a misplaced note the correspondent inadvertently neglected to mention the death of Mrs. Arnold Bloom which occurred at her home in Bloomington on last Thursday, April 28th. Her death was caused from her sustaining a stroke. Her age was about 62 years. She is survived by her husband, two daughters and one son. Her funeral was held on Saturday afternoon, Rev. Jones, of Lumber City, officiating. Interment of body was made in the Bloomington cemetery.

Mrs. John Webb, a highly esteemed colored lady of Curwensville died at the home of her husband, Rev. John Webb, on Saturday morning, after a brief illness. Bright's disease was the direct cause of her demise. A more extended notice of her death will appear later as will also the date and hour of her funeral.

In conversation with some of the farmers of this neighborhood Saturday, we were told that in many orchards the trees which bear late apples the blossoms were untouched by the late frosts and that, unless some unforeseen event occurred between now and fall, the apple crop would be considerable.

Several of the relatives of the late G. B. Hoover desire us to state that some months prior to his death he made a profession of faith and accepted Christ as his Saviour. Also early in life he became a member of the M. E. church denomination at Centre. During Clegg's administration here he frequently attended divine services in his church on Filbert street.

Borough Council is expected to assemble in session tonight, when some important questions will be discussed, the principal topic, no doubt, will be ways and means of repairing Susquehanna avenue, which has been in bad shape for some months.

The relatives and friends of Gary B. Hoover, through the Curwensville letter wish to thank all who rendered assistance in time of his illness and funeral, especially to the I. O. O. F. and members of the R. H. and L. Co.

The entertainment and tea serving by members of the Ladies' Auxiliary in the Legion Rooms on Saturday afternoon was patronized better than was really expected owing to the disagreeable condition of the weather.

There was a considerable search made for that auto load of booze that was supposed to have reached here last Friday night. If it come, and we doubt it very greatly, no one up to this time has been able to locate the spot in which it was cached.

The Committeeman of Joshua E. Sipes Post A. L. who have the arranging for a Memorial Day Program will complete their task shortly when it will appear in the Curwensville letter to The Progress in full to be read by that paper's nearly 600 patrons in this place.

Miners and brickyard men are living in expectation of work being resumed in full before long. From present indication things do not point very favorably in that direction, less now than it did two or three weeks ago.

Mr. Correspondent:— Can you inform me the date that Lincoln Patton was drowned and how it occurred?

Answer:— The date was March 17, 1872, making it 4 9years March 17, 1921. He was born March 16, 1865. The lad was just recovering from a dose of measles and was forbidden to leave the premises. Ed. Patton, a lad about his own age came along and asked him to go to the creek, a splash being on and the logs running. Patton slipped away from old Tommy McAdams, who was working about the house for Gen. Patton. The lads went to the mouth of the creek and each securing a pole commenced to push logs away from the wharf on which they were standing. Patton's pole slipped on a log; he lost his balance and fell across some logs going by, which carried him into the breast of the dam, where he fell from the logs and disappeared. He never came to the surface again. His body was found two weeks afterward by Uncle Jimmy Bloom, 2 1-2 miles from town.

Making for Merriment.

Honest good humor is the oil and wine of a merry meeting, and there is no jovial companionship equal to that where the jokes are rather small and the laughter abundant.—Washington Irving.

Three Species of Giraffe.

Dr. Samuel Johnson did not quite cover the facts when, in his celebrated dictionary, he defined the giraffe as "an Abyssinian animal taller than the elephant, but not so thick." As a matter of fact, there are at least three species of giraffe—the one with two horns, long familiar to us, and the second, that dwells in northeastern Africa, and shows a third frontal horn (in old bulls), or, in the Uganda variety, with as many as five small horns on its crown. In the second species the patches in the network of coloring are larger and of a brighter chestnut than in the ordinary kind.

Call of the Wild Goose.

"Honk" is one of the many words of imitative origin, and is applied to the cry of the wild goose. The word appears in 1854 in "Walden, or Life in the Woods," by Henry David Thoreau, the distinguished American naturalist, and later is used by Oliver Wendell Holmes. "As the air grows colder, the long wedges of geese flying South, with their commodore in advance, and 'honking' as they fly, are seen high up in the heavens," and more recently by Theodore Roosevelt in his "Hunting Trips."

Old-Fashioned Armor.

Men have used body armor of some kind since earliest days. Except it withstanding several ballistic tests neither our modern plate nor our padded armor seems to be much improved over the old helmet and corselet.

Most Men Usually Do.

Seeing is believing, but it is just as well to take another look.—Philadelphia Record.

Entered at Post Office at Clearfield, Pa., as second class matter.

They called it a "rump" session but it looked more like a "hump" session. They "humped" some after they threw the ballast over board.

JUST SO WE DO IT

It was very unfortunate that the state of the weather interfered with the trucking end of the Boro clean-up plan, but it is very gratifying to the Board of Health and all good citizens to note the great response to the clean-up plea and the postponement of the gathering of rubbish until some day this week will give the derelict one more chance to do their bit toward stamping out disease this summer.

Remember that the sanitary condition of the premises are a pretty good indication of your desirability as a citizen.

CATCHING UP WITH THE PARADE

The last session of the legislature wound up like a three ring circus; so much going on that day that only recourse to the records will show what did transpire. The deposing of Speaker Spangler attracted all the spot light and few people could name a half dozen important measures passed on that eventful day when the desires of the majority once more found expression after Mr. Whittaker took the chair.

Editors have found it impossible to comment on these maesures as fast as they came through the legislaive mill after the "monkey wrench' 'was taken out of the machinery and our legislature was permitted to function.

Now that it is over there should be plenty of time to go carefully into the work of the legislature and especially each individual member with a view to determining whether their course of action merits reelection and it is the duty of a newspaper to inform its readers how the representatives of the community voted on every measure. This The Progress proposes to do and a statement or table is now in course of preparation which will show where and on what our representatives stood. It will also show what measures they did not vote on, presumably preferring to be absent rather than utilize their backbone It will make interesting reading. Watch for it.

THE BEST DEFINITION OF THE "BOY" WE KNOW

He is the person who is going to carry on what you have started.

He is to sit right where you are sitting and attend to those things you think so important when you are gone.

You may adopt all the policies you please, but how they will be carried out depends on him.

Even if you make leagues and treaties, he will have to manage them.

He is going to sit at your desk in the Senate and occupy your place on the Supreme Bench.

He is going to move in and take over your prisons, churches universities, counting houses and corporations.

When you get done all your work is giong to be judged and praised or condemned by him.

Your reputation and your fortune are in his hands.

He will read the books you write or sell them to the second hand man.

He will assume control of your cities.

Right now the future President is playing marbles, and the most famous actor of his day is complaining because he does not want to go to bed.

Not your contemporaries and the fellow citizens, but the boys out there in the school yard, are going to say whether after all you were a grand and noble hero or a blatherskite.

It is the boy who will amend your rules, alter your creeds, laugh at your mistakes.

He may think kindly of you, and say you did the best you could, or he may not. Watch your step!

All your work is for him, and the fate of the nation and of humanity is in his hands.

So it might be as well to pay him some attention.

Equipment.

She (in a tantrum)—Absolutely! I'm going away to die. Give me my toothbrush and my powder puff.—Paris Sans-Gene.

Life Getting More Complex.

An Ohio physician declares that the length of a woman's second toe indicates her disposition, and he warns us against women with long ones. What the dickens! Must the fellow who goes courting carry along an X-ray machine?—Boston Transcript.

Easy.

A distinguished London clergyman has two maids, both named Kate. One is a Cockney, the other a Scot. The difficulty of distinguishing the two is solved by the easy method of calling one Kite and the other Kate. No confusion ever arises.—London Post.

Preserve Scottish Phrases.

The Scotch origin of many north of Ireland families is shown by the common words in use. Both speak of a burn, but in both Scotland and Ulster the phrase wee stream is much more likely to be heard.

One Girl in a Million!

Is Ethelinde Terry's right eye winking at us? If not—well, she's "different" from any 18-year-old girl you know! Ethelinde is the famous "baby prima donna" of "Honey Dew." Joys of the average flapper's life are her pet aversions, she says. Just listen: BOYS—"Waste of time!" TENNIS—"Dancing's more fun and just as good exercise." GOLF—"Why spoil a good walk?" JEWELS—"Barbaric!" CORSETS—"They're for the lazy!" MARCELLED HAIR—"Let nature alone!" PARTIES—"Bore me stiff!" What DOES she like? Singing, dancing and walking!

FEARED END WAS NEAR STATES RAILROAD MAN

Reimiller Says He Don't Feel That Way Now, As Tanlac Has Completely Restored His Health.

"When a good thing comes my way I like to pass it on; that's why I am all the time telling my friends about Tanlac," said Howard W. Reimiller, 186 S. Church St., Hazelton, Penna., a valued employe of the Lehigh Valley Railroad.

"I dreaded to see meal time come on because I had stomach troubles so bad," he continued. "Gas would form so bad I felt like I was being choked to death, and my heart palpitated so fast I thought sometimes I was going to die. I had awful pains in my stomach, and would get so dizzy and fainty sometimes I felt like I would fall over if I tried to walk alone. I had a stubborn case of constipation and every few days had splitting headaches. My nerves were all upset and my sleep was all broken up. Then on top of this I had the "flu" and it came mighty near knocking me out altogether. It left me as weak as a kitten, and at times I just shook and trembled all over.

"But I don't feel that way now, for Tanlac has made me all over again and I can put in as big a day's work as ever. My appetite is fine and I have picked up ten pounds in weight. I am all over being nervous and constipated, in fact am in the best of health. I have never seen or heard of another medicine that can compare with Tanlac."

WRIGLEY'S

"After Every Meal"

LYTLE BROS.

Raising the Goat.

In some of the towns of Queensland goats are used for drawing water carts, in teams of four or sometimes eight. Goats are also bred and trained for racing in that Australian province, and a race meet where speedy billies and nannies are entered may always be counted on to draw a large crowd.

Cross on Fox's Back.

The American red fox is found in many localities from Canada to Georgia, and westward to the great plains, says the American Forestry Magazine. When it exhibits a dark cross on the back and shoulders, it is known as the Cross fox, and when the animal is all black with a white-tipped tail, it is called the Black fox.

Inconsistency.

As a Christmas present a wife will give her husband a pipe with enough brass trimimngs on it to start a foundry. And then she will get mad if her husband doesn't swear off smoking on New Year's day just because the man next door has decided to swear off.—Arkansaw Thomas Cat.

DRINK HOT WATER BEFORE BREAKFAST EVERY MORNING

Hopes every man and woman here will adopt this splendid health habit.

Says a glass of hot water with a teaspoonful of limestone phosphate in it washes poisons from system, and makes one feel clean, sweet and fresh.

Why is man and woman, half the time, feeling nervous, despondent, worried; some days headachy, dull and unstrung; some days really incapacitated by illness.

If we all would practice the drinking of phosphated hot water before breakfast, what a gratifying change would take place. Instead of thousands of half-sick, anaemic-looking souls with pasty, muddy complexions we should see crowds of happy, healthy, rosy-cheeked people everywhere. The reason is that the human system does not rid itself each day of all the waste it accumulates under our present mode of living. For every ounce of food and drink taken into the system nearly an ounce of waste material must be carried out, else it ferments and forms ptomaine-like poisons in the bowels which are absorbed into the blood.

Just as necessary as it is to clean the ashes from the furnace each day, before the fire will burn bright and hot, so we must each morning clear the inside organs of the previous day's accumulation of indigestible waste and body toxins. Men and women, whether sick or well, are advised to drink each morning, before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it, as a harmless means of washing out of the stomach, liver, kidneys and bowels the indigestible material, waste, sour bile and toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach.

Millions of people who had their turn at constipation, bilious attacks, acid stomach, sick headaches, rheumatism, lumbago, nervous days and sleepless nights have become real cranks about the morning-inside bath. A quarter pound of limestone phosphate will not cost much at the drug store, but is sufficient to demonstrate to anyone its cleansing sweetening and freshening effect upon the system.

Fox Can Be Tamed.

No wild animal is more easily domesticated than the fox, either red or gray, and none exhibits so much sly cunning when tamed, says the American Forestry Magazine, but they are susceptible of a very high degree of affection for whoever has them in charge.

A London Statue.

The Achilles statue in Hyde park London, was cast from a cannon captured during the Duke of Wellington's victories, and is dedicated to him and his troops.

Paid Attention.

"I can't stand the tension," sighed the convict as the electric chair ended his earthly sorrows.—Science and Invention.

Sigh for the "Good Old Days."

Jud Tunkins says he sometimes wishes we could get back to the old times when the average person was not expected to make a speech except on his birthday or when he got elected to something.

He Accomplishes Things.

It is usually the fellow who doesn't know any better who does the thing that can't be done. You see, the poor fellow doesn't know it can't be done and so he goes ahead and does it.—Exchange.

Jud Tunkins.

Jud Tunkins says some people never have any idea of pulling together unless the proposition is some kind of a political pull for their personal benefit.

BUSINESS AND TRADE

With Special Attention to Coal, Clay and Brick

Trade News of Local Interest

BUSINESS AND FINANCIAL CONDITIONS IN THE THIRD FEDERAL RESERVE DISTRICT

General Summary

Has the liquidation process been completed? Is business now at the turning point, prepared for a return to normal activity? These are the pertinent questions which are being asked constantly and for which no satisfactory answers have as yet been advanced.

A survey of industrial conditions during the first three weeks of April reveals the futility, when generalizing on the entire situation, of attempting to answer them either affirmatively or negatively. The condition in no two industries are identical. The silk industry is receiving good volume of orders, but at the other extreme is the iron and steel industry which displays continued weakness. Between these two industries as the limits, all other lines show either improvement or decreased activity, varying in degree.

Shoe factories are producing at a rate considerably in excess of January, and a hopeful sign is to be found in the increased interest in staples which were neglected a month ago. The demand for specialties continues active.

The woolen and worsted manufacturing industry has shown a marked improvement. The business in spring goods was unexpectedly heavy and the interest shown in these has partially carried over to fall lines, of which a fair volume of orders has been booked. The market for cotton goods, apart from a decided interest in ginghams and a few other lines, little sign of betterment.

Coal production, both anthracite and bituminous, has fallen off due to the lack of demand. Domestic buyers have been inactive, principally because of the curtailment in iron and steel production and the decrease in railroad traffic. The Car Service Division of the American Railway Association reports that during the week ending April 8, there were 507,427 idle cars, which is 21 per cent. of the country's total number. This sets a new record and is an increase of 210,000 idle cars over the beginning of the year. 261,294 coal cars were included in the total number of idle cars. The coal strike in Great Britain has resulted in numerous inquiries for American coal. Should this strike continue for any length of time, the foreign demand may serve to offset in part the decreased consumption in the United States.

Retail trade continues fairly active, but shows definite signs of retardation. Reports from department stores in this district for the month of March showed sales only 1 8 per cent. in excess of March 1920, and stocks of goods 19.0 per cent less. As compared to February 1910, stocks increased 5.9 per cent. Retail prices are lower than a year ago, but the sale of an increased number of units accounts for the present volume. continue to demand merchandise of good quality and are intolerant of attempts to substitute cheaper grades At the same time, however, they are not displaying the extravagance which characterized the war period and the latter part of 1920.

Plants Grow Best Transplanted.

Plants do not always select the most congenial habitat, for it has been found that some specimens found growing modestly on the mountain top flourish to a marked extent when transplanted at the sea level.

Tonic for Flowers.

The water in which beef has been washed before cooking makes an excellent tonic for roses and geraniums.

HUSBAND AND WIFE BOTH SICK

Mr. and Mrs. Andrew Comer, Shenandoah, Va., were both ill. He writes: "Rheumatism and bladder trouble was our trouble. My wife had rheumatism in her arms so she could not use them. She has had no trouble since taking Foley Kidney Pills. I don't have to get up at night so much since taking Foley Kidney Pills, nor have I a weak back." Backache, sore, swollen or stiff muscles or joints, tired languid feeling—yield quickly to Foley Kidney Pills.

Kindred Likes.

Five-year-old John heard his mother speaking of her favorite colors, white and green. A few days later, John, looking out of the window at a snow storm, said: "Mother, God must like the same colors you do, because in winter He makes everything white and in summer He makes everything green."—Exchange.

Bud Gaulin returned to State College this morning after spending the week end at his home here.

Mr. and Mrs. H. R. Grusendorf left this morning for their home in Detroit, Mich., after spending the past couple months with relatives here.

thousands of others affected, together with a loss of approximately $1,000,000 a day.

The strike order was issued after a wage cut of 15 per cent had been placed in effect Saturday at midnight by American shipowners, who had originally decreed a 30 per cent cut, but after a conference with the union and with Admiral Benson, head of the Shipbuilding Corporation, compromised on the smaller amount.

WASHINGTON, May 2.—Secretary of Labor Davis expected to attempt late today or early tomorrow to settle the marine engineer and seamen's strike, which began last night at midnight.

Secretary Davis said he was acquainting himself with the wage scales of several years past, but refused to further discuss the matter.

STOCK HANDLERS READY TO BATTLE

CHICAGO, Ill., May 2.—Battles in Chicago loomed imminent today when strike breakers prepared to take the places of 1500 live stock handlers, who had refused an eight cents an hour wage reduction ordered by the packers. The direct unsettling results of the strike will be a congestion of traffic in the yards, a complete slowing down of the meat supply and the possible loss of cattle through lack of care.

Mrs. Bryan Narehood of Surveyor spent Sunday with friends in town.

New State Treasurer

HARRISBURG, May 2.—Charles A. Snyder, former Auditor General of the Commonwealth, took the oath today as State Treasurer. He succeeds H. M. Kephart, who was appointed deputy state treasurer, and sworn in today.

German War Leaders To Face the Music

LONDON, May 2.—German leaders, charged with being responsible for war acts, will face trial as soon as the reparations question is settled, it was announced today. The first step will be to send German lawyers to London to question witnesses. It was declared that once started the trials would be rushed to completion.

DON'T ABUSE YOUR EYESIGHT

Straining your eyesight ay after day is like monkeying with a high explosive when you don't understand them. The result may not come as quickly but it WILL come nevertheless and be as fatal to your eyes.

Let me relieve your eyestrain tomorrow.

PATTON DEFEATED IN FIRST SCHOOL GAME OF SEASON

By DICK LEIPOLD

While the Red and Black Relay Team was putting Clearfield on the track map at Philadelphia, another branch of high school athletics splurged to the front, the High School baseball nine making an impressive opening by clouting out a 10 to 6 decision over the Patton High Scholastic Stars.

The Patton team appeared to be quite an experienced outfit as it trotted out for preliminary practice, for their players sported every style of ball togs from Fordham College Varsity uniforms to antiquated appearing Patton Professionals' suits. However, the motley appearance of the invaders must have joined forces with the elements, for with a leaden sky overhead and boggy soil beneath, the Cambria county players tore 'round the bases on little infield taps that should have been smothered.

But, how-the-soever, Patton gathered in two runs, which was the nearest they came to winning, for in the fourth inning Clearfield tied it up and were never after headed.

In the fourth frame, with Patton leading 2 to 1, Ammerman slammed a single to right, stole second, advanced to third on Bowes' scorcher past short and scored on "Hody" Johnson's liner over first. Moore popped to Davis and Bowes slid into the ball at home, retiring side.

Sixth and Seventh Clearfield's Big Innings.

After a tame fifth, Copper drove a hot one to Barney, who juggled the ball a second too long to catch the runner, but Bowes fanned the next two stickmen.

Gooderham, the hardworking Patton catcher, smote a burning liner to Barney, who scooped it up and socked it to Cowdrick for Patton's third out.

In the home half the local students bombarded Christoff, the entire team batting around.

Cowdrick pumped a single over short. Big Bill Ammerman followed with a clean wallop to right, advancing Cowdrick to third. Bowes then beat out a nasty bounder that the Patton third baseman and short stop did the "after you" act over, and on Cooper's wild peg to first, Cowdrick and Ammerman tallied.

This seemed to unnerve the big Cambria county twirler, who passed Moore and hit Howe, filling the bases.

Christoff then fanned Nelson, but Newt Norris' soaring lick to center chased Bowes and Moore across the plate, and the next pitch being untamed, Howe scored. Barney fanned.

Patton registered three more runs in the seventh when, with two men on, Larimer's savage liner to center was misjudged by Mandolia, letting two runners in. This was Blondy Bowes' worst session during the entire game. Dutrich chipped a single to port and Choby rested on first due to an infield error. Christoff, the visitor's cleanup man, strolled, and the bases were filled.

Cooper, in a "three and two" drama, waited it out and got his pass to first, forcing in another run.

Bowes then tightened up and fanned the next two men with the bases full.

In the home half of the seventh, C. H. S. scored its final runs. After disposing of the first local by the strike out route, the Red and Black batters again peppered Christoff with a fusilade of hits to all corners of the lot. Cowdrick raced to first after the catcher dropped his third strike.

A boisterous biff from Ammerman's bat pushed Cowdrick across while Bill anchored at first.

Bowes then came across with a mammoth clout to deep center, good for two sacks, Ammerman riding home on it. Johnson's sacrifice grounder brought Bowes home and scored C. H. S.'s tenth run. Moore hit to short and was out at first.

After scoring a lone run in the ninth, the visitors were disposed of in "count off" order, ending the fray.

The score:

Patton High Scholastic Stars	AB	R	H	PO	A	E
Larimer 2b	5	2	2	0	1	2
Dutrich cf	4	1	1	0	0	0
Choby lf	5	0	1	0	0	0
T. Christoff p	5	0	2	0	7	0
Cooper 3b	4	1	2	1	0	0
Christoff 1b	5	0	0	8	0	0
Davis ss	4	0	0	3	4	1
Gooderham c	4	1	3	11	1	0
Nelson rf	4	0	0	0	0	0
Totals	40	6	12	24	7	3

Clearfield High School	AB	R	H	PO	A	E
Norris c	5	0	2	11	2	0
Barnie 2b	4	0	0	0	2	1
Cowdrick 1b	4	2	2	10	1	1
Ammerman 3b	4	3	3	4	2	1
Bowes p	4	3	4	1	1	0
Johnson ss	4	0	1	1	2	1
Moore lf	3	1	0	0	0	0
Howe cf	2	1	0	0	0	0
Mandolia rf	1	0	0	0	0	1
Totals	35	10	12	27	10	5

Summary: Passed balls, Gooderham, 4; Norris 1. Hit by pitcher: By Christoff, Howe; by Bowes, Dutrich. 2 base hit, Bowes. Sacrifice hit, Johnson. Struck out: By Christoff, 11; by Bowes, 11. Stolen bases: Patton, 3; Clearfield, 2. Umpire, Linsenbigler. Time of game, 2:11.

Gossip for Tonight's Tea Table

Miss Marguerite Moore returned to her home on West Third Ave., yesterday after spending the past few days with friends in Williamsport.
